GEO-INFORMATION COURSES

Career Skills Center (CSC) is a registered company based in Kenya. Career Skills Center provides professional training services in geo-information and ICT. Career Skills Center does research and development to promote innovative solutions and applications in the use of geo-information in Africa.

The overall goal of Career Skills Center is to promote geospatial technology training and education opportunities in order to develop and maintain appropriate skill levels for her clients so that they are able to use geospatial technology tools optimally for their benefit. This is done by developing training plans for the different levels of need; recommend appropriate training for the different clients; and to create an educational program for training clients who are not yet familiar with the benefits and uses of GIS, Remote Sensing (RS) and GPS in their respective work environments.

Career Skills Center offers the following courses and are conducted monthly:
